

# WHY WORK WITH ROCKFORD?

Simplifying your supply chain with excellence: high-reliability bespoke designed system-level electrical equipment from prototype to production, delivered with on-site global support.

## WE WORK WITH YOU

Turn your ideas quickly into a product

Offset production through UAE partnership

Requirements capture process ensures we understand exactly what you need

## DESIGN PROCESS

Communicate your vision and we will design it

We develop accurate cost forecasts

Compare planned versus actual performance

## GROWING YOUR BUSINESS

Plan for your surge capacity requirements

Strategically manage growth by outsourcing

Take advantage of opportunities and mitigate risks

## VALUED PARTNERSHIP

We work in partnership with key suppliers and customers

Every customer and project is managed personally

We work to your high standards, and those of the aerospace and defence industries
