

# COMPOSITE CABLING

ROCKFORD - DELIVERING GLOBAL EXCELLENCE BY DESIGN

Providing innovative, compact and robust cabling solutions with our French composite partner and their unique curved composite solutions. Rockford has partnered with Equip'Aero Technique to develop an innovative technology solution to electrify composites for use in aircraft interiors and other applications.

# WHO WE ARE

Rockford is the UK's largest independent provider of wiring, interconnect & system solutions for the aerospace, defence and industrial markets.

# WHAT WE DO

With over 40 years of wire harness design experience, we design, prototype, and manufacture IP68 sealed box builds, PDUs, control units, control panels, or electro-mechanical assemblies. We offer rapid prototyping with fabricated, machined or cast enclosures and have a pedigree in defence platforms.

The electrified composite solution has the potential to disrupt the composite industry, with its lightweight, compact results and a wealth of potential applications, starting with projects within the aircraft interiors niche.

# PEDIGREE

Customers include; BAE Systems, Zodiac, Rolls Royce, Thales, Moog, and General Dynamics.
