ROCKFORD

WHAT DOES ROCKFORD OFFER?

Rockford can simplify your supply chain with high-reliability bespoke designed system-level electrical equipment from prototype to production, delivered with on-site global support.

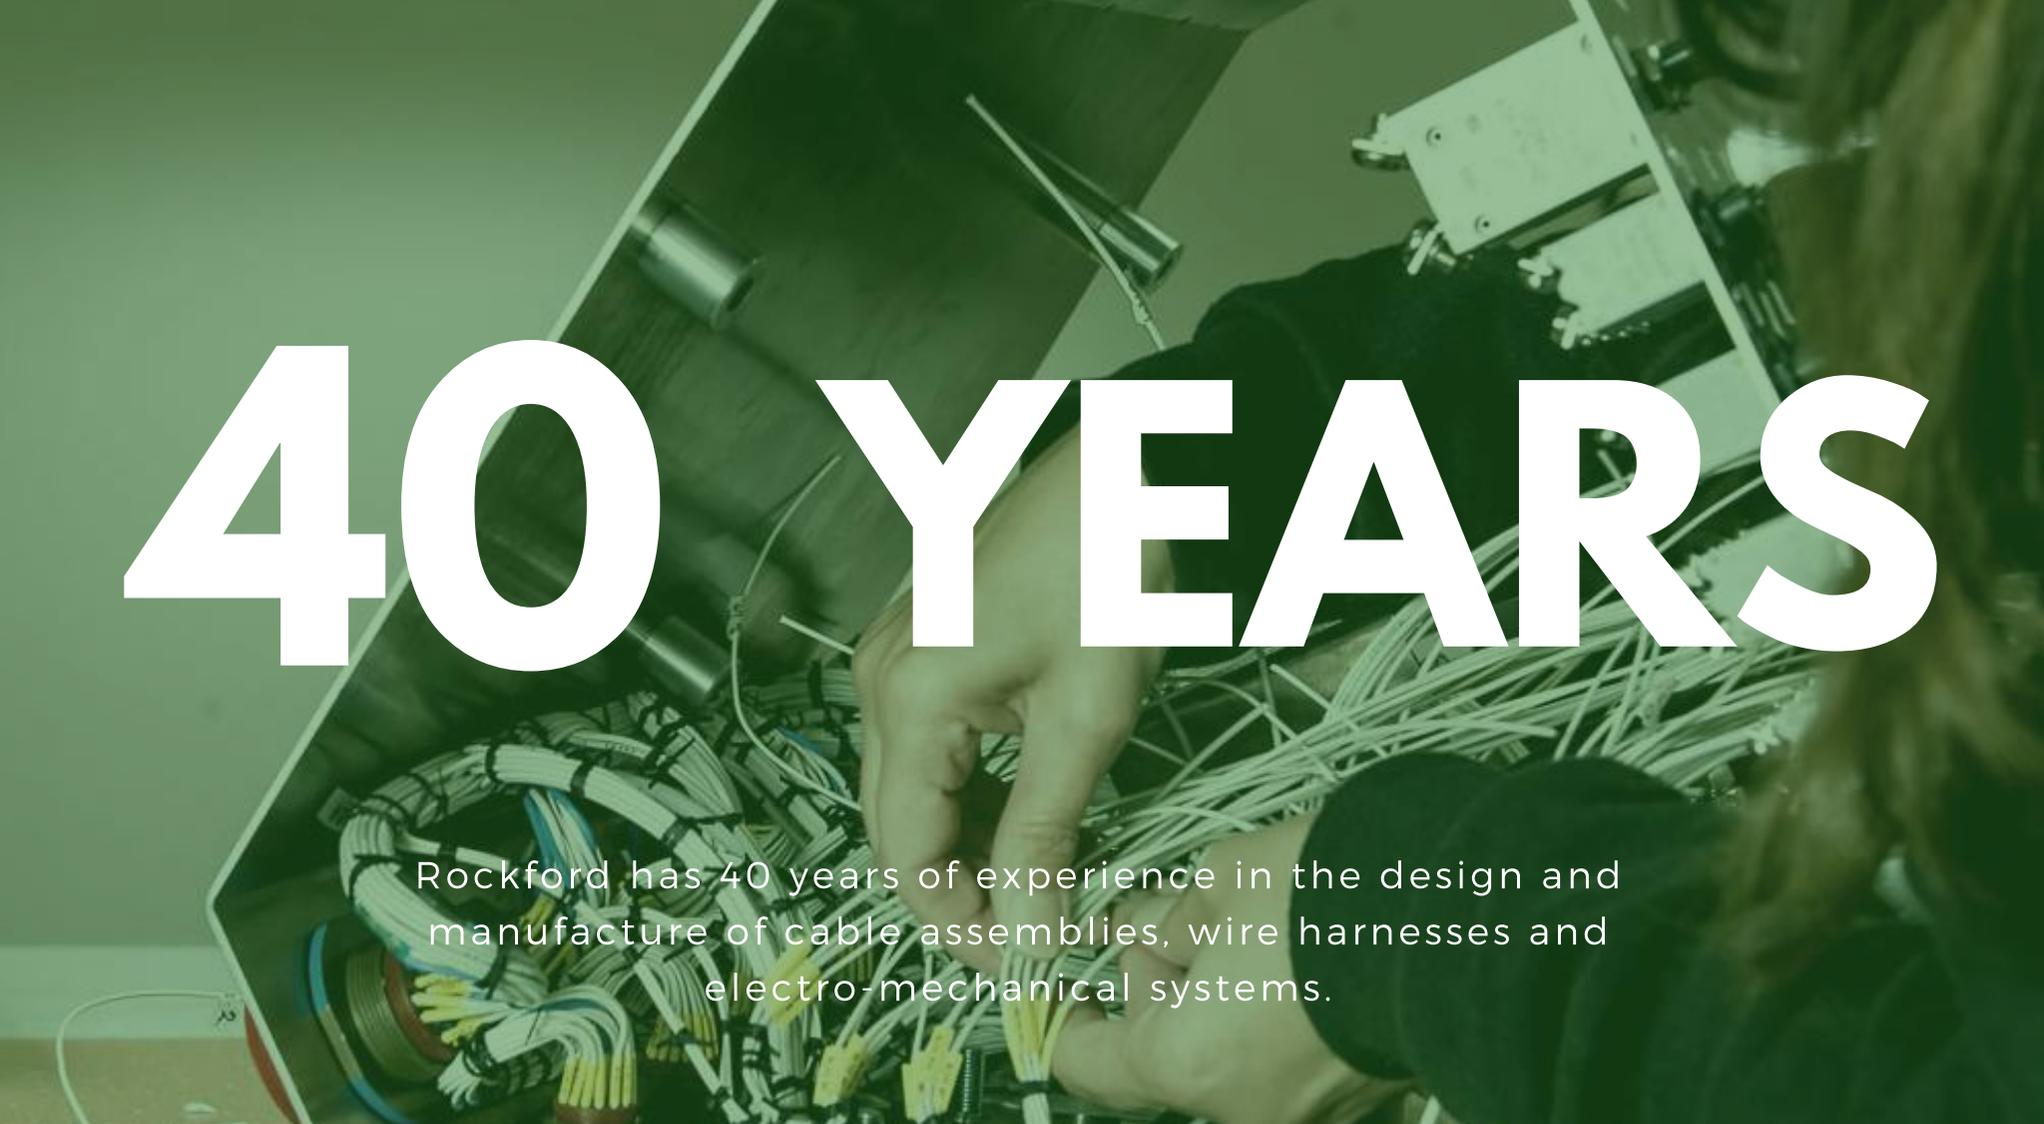

We have grown from being a small family firm in 1978 to become the UK's largest independent provider of wiring, interconnect and system solutions for the aerospace, defence and industrial markets.

Peter Lion, Managing Director

ROCKFORD

Delivering Global Excellence by Design

A person is shown working on a complex cable assembly inside a metal enclosure. The person's hands are visible, carefully handling a bundle of white cables. The enclosure is open, revealing various components and wiring. The background is a dark, industrial setting. The overall image has a green tint.

40 YEARS

Rockford has 40 years of experience in the design and manufacture of cable assemblies, wire harnesses and electro-mechanical systems.

With over 40 years of wire harness design experience using the majority of wiring harness systems and materials, Rockford can offer design advice for any type of environment.

Understanding Your Needs

PLATFORM ARCHITECTURE

- You want to take cost out of the platform
- You have too many single-source components
- You need to reduce space and weight

ROCKFORD'S CORE BENEFITS

1

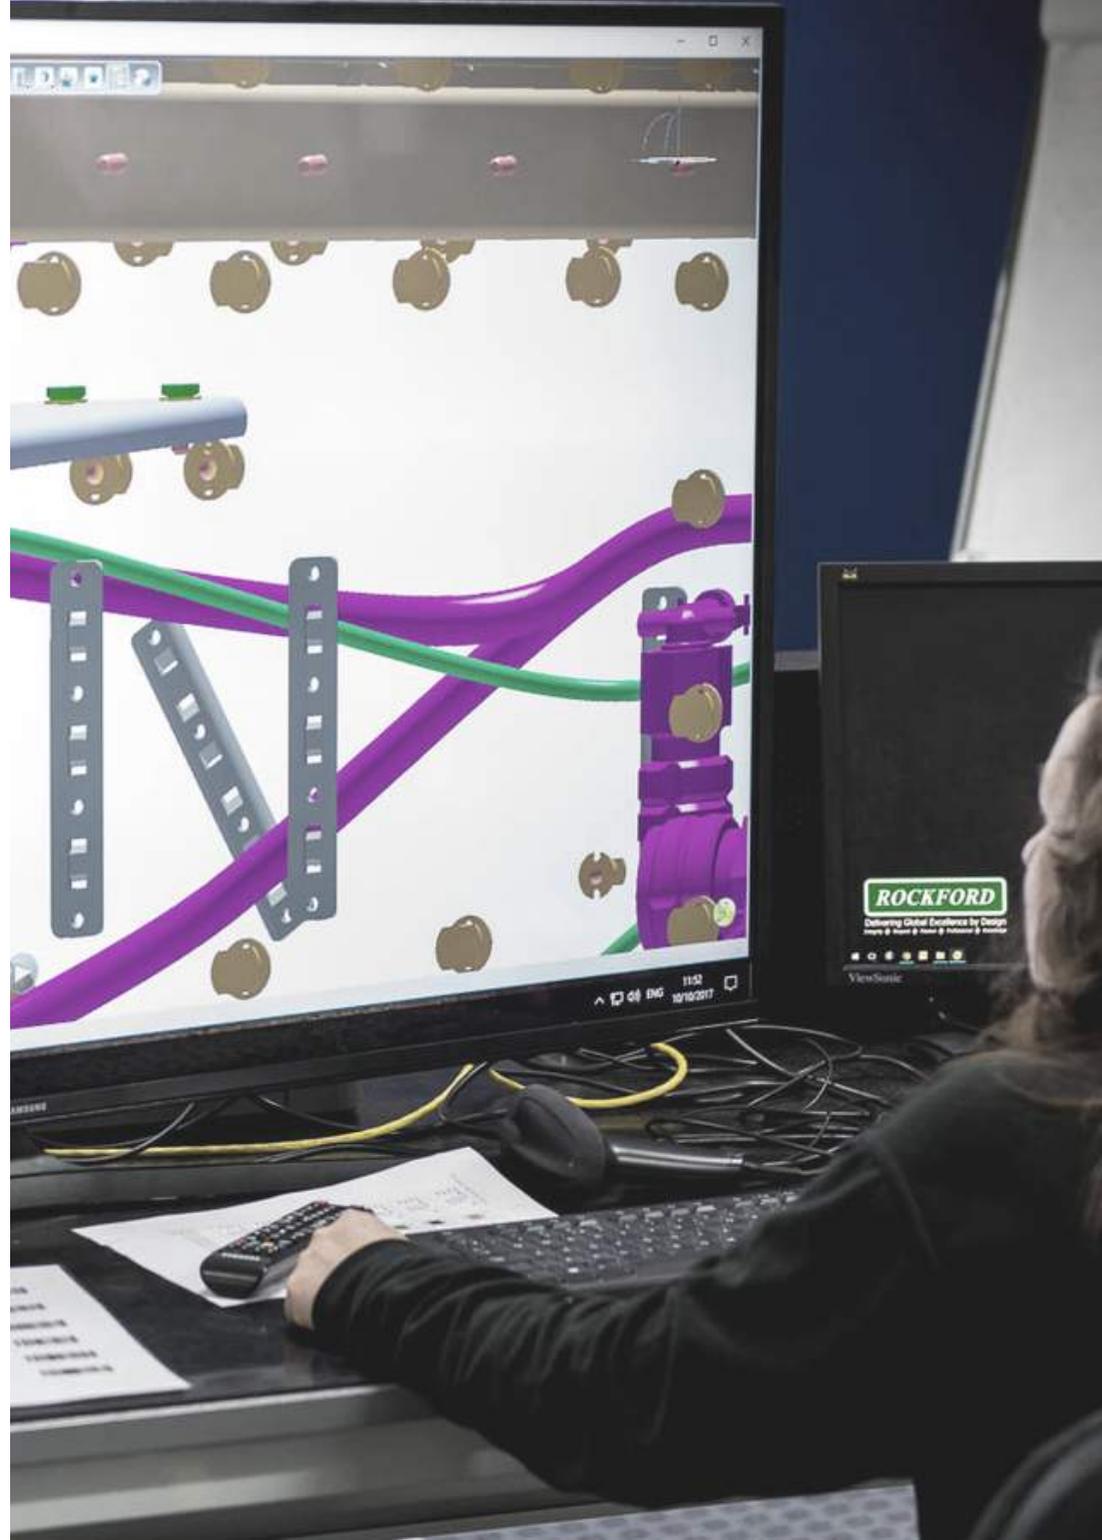

Standardisation of components and open-source supply chain

2

Prototyping and on-site support

3

Ruggedising assemblies

d via an Operator
enclosure.

Many of our customers require extra capacity to manage future surges in production and would like a dynamic and flexible electrical partner to meet the demands of predicted aerospace build rates.

Chris Parsonage, Sales & Marketing Director

SYSTEM SOLUTIONS

Rockford helps customers deliver highly ruggedised and complex platforms by integrating technology. This mitigates risk for customers by offering a one-stop-shop for all electrical requirements (electro-mechanical/electrical cable assemblies/design services/tailored logistics/on-site-support), simplifying complex, and often fragmented, supply chains with an open-source multi-supplier design.

Woven Cables

A middle-aged man with glasses, wearing a dark suit, white shirt, and a patterned tie, is smiling and looking down at a document he is holding. The background is a blurred office setting.

We've gone from being a good British company to being a great international company with over 50% of production exported in 2016.

Steve Hayter, Commercial &
Finance Director

An Established Pedigree

CUSTOMERS INCLUDE

Pilatus, Lockheed Martin, General Dynamics, CMI Defence, BAE Systems, Mercedes, Caterpillar, Perkins, Thales, and Moog.
